

## **ICA on the Economic Foundations of Digital Culture (Cook, HON-H 399)**

### **Group 1: Post-industrialism**

1. Develop a “thumbnail-sketch” or a “nutshell” definition of this concept. To what phenomenon does it refer? (Don’t just quote from the textbook, paraphrase your own definition.)
2. Example? Come up with your own example of this concept, preferably one that’s not explicitly mentioned in the textbook(s).
3. How does this concept connect to the concepts of “Information society” and “Post-Fordism”?

### **Group 2: Information Society**

1. Develop a “thumbnail-sketch” or a “nutshell” definition of this concept. To what phenomenon does it refer? (Don’t just quote from the textbook, paraphrase your own definition.)
2. Example? Come up with your own example of this concept, preferably one that’s not explicitly mentioned in the textbook(s).
3. How does this concept connect to the concepts of “Post-industrialism” and “Post-Fordism”?

### **Group 3: Post-Fordism**

1. Develop a “thumbnail-sketch” or a “nutshell” definition of this concept. To what phenomenon does it refer? (Don’t just quote from the textbook, paraphrase your own definition.)
2. Example? Come up with your own example of this concept, preferably one that’s not explicitly mentioned in the textbook(s).
3. How does this concept connect to the concepts of “Post-industrialism” and “Information society”?
